

EIGHTH ERA

NICE GANG LAUNCHES SEASON 2 OF MOBILE RPG EIGHTH ERA WITH SIX NEW CHARACTERS

EIGHTH ERA Season 2 Expands the Battlefield with New Heroes and More Ways to Compete and Collect

NEW YORK (April 22, 2025) – [NICE GANG](#), the indie game studio bringing real-world collectibles to players, today announces the launch of Season 2 of the squad-based mobile role-playing game **EIGHTH ERA**, co-developed by Perfect Day Games, available on [iOS](#) and [Android](#) devices. This new season introduces six new heroes available now: **Ilio**, **Bai Hu**, **Young-Min**, **Heracles**, **Bastet** and **Ace**. Players can recruit these new characters to their roster of heroes by competing in tournaments, unlocking a host of new abilities to tap into in the single-player campaign, PvP and PvE modes.

Season 2 starts with the **Bastet** hero event and tournament. Thought to be the Felian reincarnation of the Egyptian goddess of protection, Bastet is a legendary support hero with game-changing healing buffs. Starting April 22, players will be able to unlock this character and compete for the Bastet Hero Coin in the following tournaments:

- **Bastet Sprint Tournament 1:** April 22 - 27
- **Bastet Sprint Tournament 2:** April 29 - May 4
- **Bastet Marathon Tournament:** May 6 - 18

“Season 2 marks a bold new chapter for **EIGHTH ERA** as we expand the game’s universe with six brand-new heroes, each crafted with distinct mechanics and playstyles,” said Jason Wasserman, CEO and Co-Founder of NICE GANG. “These additions enrich the gameplay

experience, offering fresh strategies for team-building, tournament competition and collectible rewards. We're excited to see how players embrace and master these heroes as the world of *EIGHTH ERA* continues to evolve."

Season 2 will also highlight new PvP faction bonuses that players can use to dominate the Arena Mode. The current featured factions that receive a 5% buff in HP, ATK, and DEF in PvP are Pteran, Human, and Crearen. These change every two weeks, so always check your in-game messages or join the Discord for the most up-to-date information.

In addition to the new characters and arena factions, the new *EIGHTH ERA* seasonal update will bring new patch updates to the base game, which you can view [here](#).

During Season 2, new physical collectible rewards and earned tournament prizes will be released periodically. Last season, NICE GANG's special edition American Silver Eagle coins sold out within the first 12 hours – so be on the lookout for exclusive drops and act fast!

EIGHTH ERA is now available on the [App Store](#) and [Google Play](#) worldwide. For more information on *EIGHTH ERA*, please contact NiceGang_Team@zebrapartners.net.
