Viewers were treated to an epic trailer showing off the grandiose and merciless enemies who lurk within the greatly expanded world, and a surprise announcement that the DLC is available NOW for download on PlayStation, Xbox and Steam.

*Lies of P: Overture* transports audiences back in time to experience untold stories and chilling secrets that shape the past and future of *Lies of P*, all while unlocking an arsenal of weapon combinations and Legion Arms that provide unprecedented freedom to forge unique combat styles.

“*Lies of P* was a historic debut for our team, and it felt fitting to expand the story we’ve crafted in the most noteworthy fashion during Summer Game Fest with a surprise shadow drop on all platforms,” said Jiwon Choi, game director, ROUND8 Studio. “This expansion allowed us to complete the first arc of our story, and we hope our community feels the same love and support as they did for the base game. Please stay tuned for what awaits Geppetto’s Puppet.”

In addition to the DLC launch, the base game will receive a patch with two new difficulty settings and two new challenging boss battle modes. The boss battle modes are accessible via the Hotel Krat Stargazer once players have seen at least one base game ending. Battle Memories allow players to relive battles against previously defeated bosses with new difficulty tiers. Death March offers a challenging consecutive series of previously defeated bosses with limited player health and items.
