"Kickstarter is woven into the DNA of the Dice Throne story, so there was no better place to launch this digital evolution and celebrate the community that has helped shape the franchise over the past decade," said Nate Chatellier, co-designer of Dice Throne and CEO of Nerd Ninjas. "We are committed to delivering a world-class game for every player and this campaign gives fans the opportunity to help shape the game as we build it. By backing, supporters gain early access and a seat in our development process. The campaign is a chance to directly influence the game and help us determine exactly how much we can deliver in this next chapter. We're beyond excited to embark on this adventure together."

"*Dice Throne* has always been about more than the game itself; it's about the friendships, rivalries, and shared moments that come from playing it," said Manny Trembley, co-designer of *Dice Throne*. "*Dice Throne Digital* creates a new way for that experience to fit into everyday life. It helps friends stay connected, makes it easier to try new Heroes, and lets people get games in more often, even when they can't be at the same table. We see it as a meaningful way to welcome new players into *Dice Throne* while giving our existing community more ways to play."

Become Your Hero Like Never Before - Eight Iconic Heroes, Multiple Ways to Play

Dice Throne Digital will launch with the original roster of eight iconic Heroes: **Barbarian, Monk, Moon Elf, Ninja, Paladin, Pyromancer, Shadow Thief, and Treant**. Each features unique dice, abilities and gameplay strategies ranging from aggressive offense to tactical defense.

Players can experience the game through **Classic mode**, a faithful recreation of the
